PROFESSIONAL SUMMARY

Data Science and Artificial Intelligence graduate from Yarmouk University with project experience in SQL, Python, Power BI, and RAG-based applications. Skilled in data preparation, validation, exploratory analysis, and dashboard reporting, with foundations in machine learning. Seeking an entry-level role in data analytics, data science, or applied AI to contribute practical skills and grow within a collaborative team.

TECHNICAL SKILLS

- **Data Analysis & SQL:** Python (Pandas, NumPy), SQL (MySQL, SQLite), relational data models, JOINs, CASE expressions, date calculations, data cleaning, validation, aggregation, and descriptive statistics.
- **Reporting & Visualization:** Power BI (KPI measures, cards, charts, slicers), Excel (PivotTables, KPI dashboards), Tableau, exploratory data analysis, and communicating business findings.
- **Applied AI - Project Experience:** RAG, ChromaDB, text embeddings, BM25 retrieval, prompt engineering, LLM APIs, LangGraph, OCR (Tesseract), FastAPI, and PostgreSQL.
- **Foundations & Tools:** scikit-learn, classification, regression, model evaluation, introductory deep learning, Git, debugging, technical documentation, teamwork, and independent problem-solving.

PROJECTS

Olist E-Commerce Delivery & Customer Review Analysis | Personal Project

Aug 2026 | SQL, SQLite, Python (Pandas), Power BI

github.com/MohLGNDQ2D/Olist_Data_Analysis

- Loaded and joined orders, reviews, and customer datasets in SQLite; used SQL JOINs, JULIANDAY, and CASE expressions to calculate delivery durations and classify delivery status.
- Cleaned 96,353 joined records covering 95,824 unique orders in Pandas, excluded negative delivery durations, and used groupby and aggregation to compare review-score averages and medians.
- Found a 7.99% delayed-delivery rate among analyzed records; average review scores were 2.57/5 for delayed deliveries versus 4.29/5 for on-time deliveries.
- Built an interactive Power BI dashboard with delivery KPIs, comparison charts, and date, state, and delivery-status filters; documented the analysis workflow and business findings.

Bayyan - Intelligent Assistant for Tax Filing | Graduation Project

Feb 2026 - Jun 2026 | Python, FastAPI, PostgreSQL, ChromaDB, LangGraph

- Contributed to a team-built tax-filing application using FastAPI, PostgreSQL, and RAG; prepared and validated tax-law and guidance data against source regulations.
- The retrieval pipeline uses Tesseract OCR, legal-text chunking, multilingual embeddings, ChromaDB vector search, and BM25 keyword retrieval to ground responses in Arabic source documents.
- The application combines LangGraph conversational workflows and LLM APIs with deterministic Python tax calculations, separating generated explanations from numerical computation.

TRAINING EXPERIENCE

Inventory Controller Trainee | Pella Pharma

Jul 2026 - Aug 2026 | One-month training | Al-Hassan Industrial City, Irbid

- Completed hands-on training in inventory tracking and stock reconciliation within pharmaceutical manufacturing, developing familiarity with operational processes and accurate stock records.

Software Engineering & Problem-Solving Trainee | 42 Irbid

Sep 2025 - Oct 2025 | Crown Prince Foundation

- Practiced programming logic, debugging, and root-cause analysis through peer-to-peer, project-based learning, strengthening teamwork and independent investigation of technical problems.

EDUCATION

B.Sc. in Data Science and Artificial Intelligence | Yarmouk University

Sep 2022 - Sep 2026 | Irbid, Jordan | Grade: Very Good

COURSES & CERTIFICATIONS

Data Analytics Essentials | Cisco Networking Academy | Aug 2026
Fundamentals of Deep Learning | NVIDIA | Dec 2024
Generative AI: Prompt Engineering | IBM Developer Skills Network | Jan 2026
Gemini Certified Student (University Tier), Google AI Competencies | Google for Education | Jun 2026
Boost Your Career with AI | Kiron Open Higher Education | Mar 2026
Drive Your Success with Human Skills | Kiron Open Higher Education | May 2026

LANGUAGES

Arabic: Native | English: Professional Working Proficiency
